

Dear Sir,I would like to inform you that I have become aware of a petition by the National Association of Broadcasters to limit the content currently being offered on XM satellite radio. I would like you to know that I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I have, of my own choice decided to subscribe to the service and deeply resent any attempts by special interest groups to limit the range of services available to me. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 as a blatant attempt to stifle fair market competition. I further urge you to never institute any constraints on the the American Spirit of freedom of expression, choice and innovation.

Thanks

Georgie A. Eapen
